Co-Conference Logo Competition for 2020

September 27th, 2019 by Douglas DeMaio

The [LibreOffice](#) and [openSUSE](#) communities will have a joint conference next year in [Nuremberg](#), Germany, and for this special co-conference, we are having a logo competition. The dates of the event are still being finalized, but there are some things we can do beforehand.

A logo is essential for the conference and we want to visualize both communities during this co-conference as LibreOffice will celebrate its 10-year anniversary and openSUSE will celebrate its 15-year anniversary during the conference.

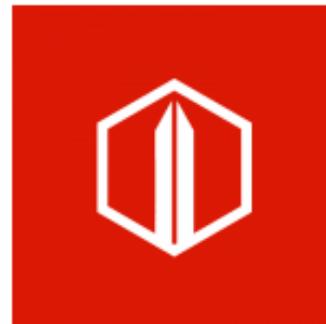

The [LibOcon](#) logo should not be confused with the LibreOffice 10th anniversary logo contest, which will be announced separately via the [LibreOffice blog](#).

You have seen both the [openSUSE Conference](#) logo and [LibOcon](#) logo change over the years. For this unique co-conference, we would like to have a unique logo reflecting both communities in one logo.

The competition is open now and **ends on January, 17, 2020**. The organizing team will send “Mystery Box” as an appreciation for the best logo designed. This year, logo will be voted on by the organizers of the conference.

Deadline: 17 January 2020 UTC 13:00
